PROFESSIONAL EXPERIENCE

IQVIA

Software Development Engineer 3 *Apr 2025 - Present*

- Spearheaded the transformation of *Agent Studio* into the configuration hub for AI Agents by working as a full-stack developer and gathering end-end knowledge of features by communicating with Product managers and Business analysts
- Collaborated with multiple different teams that were downstream consumers of the application and helped them integrate AI Agents
- Worked as a developer of *Ai Assistant* application that integrates Ai Agents and renders dashboards, charts and forms dynamically

Software Development Engineer 2 *Jan 2024 - Mar 2025*

- Led the frontend development team of *Agent Studio* and *Next Best Action* applications that are used by many different pharma client companies such as Novartis
- Conducted knowledge transfer sessions and onboarding of new joiners.

Software Development Engineer 1 *May 2022 - December 2023*

- Contributed to development of IQVIA's *Next Best Actions* and *G2N* applications. Worked on application frontend and delivered features on time.

RESEARCH EXPERIENCE

Undergraduate Research Work *Mar 2021 - Apr 2022*
Bangladesh University of Engineering and Technology
Supervisor: Dr. Md. Shohrab Hossain

- Collaborated with 2 other students and a senior overseas researcher on a thesis titled *3rd-party authentication in federated Edge and Fog systems*
- Worked on open source cellular network simulation software to conduct experiments
- Collected data from the simulated networked systems and analyzed them
